

Product information:

The LDM70 Distance Laser Meter is an essential tool for professionals seeking accurate and efficient distance measurements in various installation environments. With a measuring range of up to 70 meters, this compact device delivers precise results for tasks such as determining room dimensions, cable lengths, or speaker placement. Equipped with multiple functions to suit any scenario, the LDM70 supports single, continuous, area, volume, indirect, and addition/subtraction measurements. Its user-friendly interface, combined with a bright backlit display, ensures easy operation even in low-light conditions. It comes included with 2 x AAA batteries.

Product Features:

Dimensions	1.97 x 4.41 x 0.98 " (W x H x D)
Operating temperature	0 °C ~ 40 °C
